

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFATORY NOTE

The Editor desires to make grateful acknowledgment of the assistance which a large number of the alumni have given in the preparation of the material for the Quinquennial Catalogue of Oberlin College for 1905. Particular acknowledgment is due to Mr. Luther D. Harkness, who has had immediate charge of the work of the collection of the reports and the handling of the proofs. A similar service by Mr. Harkness upon the catalogues of 1895 and 1900 has enabled us to secure a degree of accuracy and completeness in the 1905 Quinquennial which would otherwise have been impossible.

The inquiries preliminary to the publication of this catalogue were begun in November, 1904, and have been pushed forward as rapidly as has been possible. The catalogue is supposed to be accurate for its given date of publication, March 31, 1905, although it has been possible to insert a few changes of address reported during the first half of the month of April.

The Quinquennial of 1905 has followed closely the pattern furnished by that of 1900. One change in order has been made, that of having the Alphabetical Index of Graduates follow the Locality Index of Living Graduates. The Alphabetical Index is more often consulted than the Locality Index, and is most convenient for reference at the back of the catalogue.

The only new features in this edition are the sections entitled "Historical Summary" and "Professorships and Buildings." It is hoped that a real gain will be made by placing in the hands of the officers and alumni, in a form convenient for quick reference, the really important facts contained in these new sections. The Editor can not expect that the historical data which have been gathered in these new sections are free from error. It should, however, be said that the manuscripts have been submitted to a number of the officers and teachers of the College for careful scrutiny. Any mistakes which may be noted, either in dates or in facts, should be reported immediately to the Editor, in order that succeeding issues may be entirely accurate.

The Locality Index of Living Graduates, introduced into the 1900 catalogue for the first time, has been of great service to the alumni. Hereafter the records will be so preserved in the Secretary's office that the similar information will be at all times available for the use of the alumni.

The asterisk (*) has been used through this catalogue to indicate the decease of the person thus marked.

The Editor desires to emphasize once more that with the rapid growth in the number of alumni, it is increasingly desirable that graduates shall promptly inform him of changes in address. This will insure the regular receipt of all college publications, and will keep the alumni list accurate.

GEORGE M. JONES, *Secretary*,
Editor, 1905 Quinquennial.

HISTORICAL SUMMARY

HISTORICAL SUMMARY

1832. Rev. John J. Shipherd, pastor of the Presbyterian Church of Elyria, O., and his friend, Philo P. Stewart, a former missionary to the Indians in Mississippi, conceived the idea of founding an institution of learning, combining various grades and departments, for the careful education of their own children and those of their neighbors, and also to train teachers and Christian workers. The design of the Institution, as recorded in its first catalogue (1834), was "the diffusion of useful science, sound morality, and pure religion, among the growing multitudes of the Mississippi Valley." These two men secured from Messrs. Street and Hughes, of New Haven, Conn., a provisional pledge of a tract of forest land, five hundred acres in extent, in Russia Township, in Lorain County, Ohio. In November, 1832, they came to this tract to select a site for a Christian Colony which should be the environment of a Christian school.

1833, April 19. Arrival of the first colonist, Peter P. Pease.

1833, December 3. The work of the institution began with an attendance of thirty-four students. The plan of work included preparatory, collegiate, and theological departments. The Manual Labor department was considered by the founders indispensable in any complete educational plan.

1833, December 8. First college building completed, "Oberlin Hall."

1834, February 28. A charter was issued by the Legislature of the State of Ohio to the "Oberlin Collegiate Institute," a title retained until 1850. It should be remembered, however, that the change in 1850 was a change in name only, and not in the grade of instruction. The institution began to do College work in 1834.

1834, March 10. First meeting of the Board of Trustees.

1834, April 2. First Congregational Church organized.

1834, October. The first class in the College department was organized.

1835, January 1. Rev. Asa Mahan elected President, a position which he held until his resignation August 28, 1850.

1835, February 9. Decision by the Board of Trustees to admit students "irrespective of color."

1835, May. Organization of work in the Theological department. Arrival of many theological students from Lane Seminary, of Cincinnati; also of a number of college students from Western Reserve College at Hudson.

1835, July 5-8. Inauguration of President Mahan, Professor Finney, and Professor Morgan.

1835, July. By the end of the second school year, in July, 1835, the institution was fully organized in all its departments, with a total attendance of two hundred and seventy-seven students—thirty-five in theological classes, thirty-eight in college classes, two hundred and four in preparatory classes.

1837, September. Four young women were enrolled as Freshmen in the regular College course. Three of these were graduated in August, 1841, and were the first young women who received degrees in the Arts in this country.

1839. At a time of extreme financial need, Messrs. John Keep and William Dawes were sent upon a financial mission to England. They secured much apparatus, many books for the Library, and \$30,000 in cash.

1846. The village of Oberlin was incorporated.

1850, March 21. By act of the Legislature of the State of Ohio, the name of the institution was changed from "Oberlin Collegiate Institute" to "Oberlin College."

1851, August 25. Rev. Charles Grandison Finney was elected President of Oberlin College, a position which he held until his resignation, August 19, 1865.

1851. "Scholarships" sold brought to the College about \$95,000 for endowment purposes. The immediate result of the scholarship system was the doubling of the number of students, there being an advance in a single year from 570 to 1,020, an increase maintained ever afterward, with the exception of a few years during the Civil War.

1858, September 13. The Oberlin-Wellington Rescue Case.

1860, May 3. Organization of Second Congregational Church.

1861, April 20. Enlistment of Company C, Seventh Regiment, O. V. I., composed of students from Oberlin College, followed by other companies from the vicinity. No less than eight hundred and fifty Oberlin students and graduates fought in the war for the Union.

1866, June 26. Rev. James Harris Fairchild was elected President of Oberlin College, a position which he held until his resignation, June 24, 1889.

1867, August 26. The Oberlin Conservatory of Music, organized in 1865 as a private school, was brought into connection with the College as one of its departments.

1871, November 15. The third meeting of the National Congregational Council was held in Oberlin beginning November 15th. In connection with this meeting of the National Council, the cornerstone of Council Hall, the home of the Theological department, was laid.

1877. It was voted that the long vacation in the College year, formerly occurring in the winter, should hereafter come in the summer.

1878, June 8. The number of trustees of the College was increased to twenty-four, four to be chosen each year to serve for six years, one of the four to be elected upon the nomination of the alumni.

1883, June 29—July 4. Celebration of the Semi-Centennial of Oberlin College.

1891, January 28. Rev. William Gay Ballantine was elected President of Oberlin College, a position which he held until his resignation, June 22, 1896.

1898, November 29. Rev. John Henry Barrows was elected President of Oberlin College, a position which he held until his death, June 3, 1902.

1899, March 8. A Teachers' Course in Physical Training was established, succeeding a similar course which had been in existence for several years with somewhat lower entrance requirements. The Teachers' Course was open at first to women only, but was reorganized in 1904 to include both men and women.

1900, June. Alumni Reunion. In connection with this reunion, pledges were made for general endowment for the College to the extent of \$72,000. There were also received Scholarship foundations and other special gifts, to the extent of \$10,000.

1901, March 6. It was voted by the Board of Trustees that hereafter the degree of Bachelor of Arts (A. B.) be the only degree granted to those who complete the required courses in the College Department.

1901, December 31. Completion of the Half Million Endow-

ment Fund. On January 11, 1901, Mr. John D. Rockefeller offered to the College the sum of \$200,000, on the condition that an additional \$300,000 be raised for endowment purposes by December 31, 1901. A general canvass was made among the friends of the College and the alumni, and the fund was completed at 5:30 o'clock in the afternoon of December 31. The number of contributors to this fund was 539.

1902, November 19. Rev. Henry Churchill King was elected President of Oberlin College. His inauguration as President occurred May 13, 1903.

1903, February 5. The Board of Trustees voted to undertake to raise a new Half Million Fund, towards which an anonymous donor in Boston, Mass., had made a provisional offer of \$100,000.

1903, May 14. Dedication of the Memorial Arch, erected in honor of certain missionaries of the American Board, many of whom were Oberlin graduates, who suffered martyrdom in the Boxer Uprising in China in 1900.

1903, June 22 Voted, to require hereafter that graduates of the Conservatory of Music shall have satisfied the admission requirements of the College department. In view of this action, a degree in music, that of Bachelor of Music (Mus. B.), will be granted to the graduates of the Conservatory of Music.

1904, January 18. Gift of the Olney Art Collection, conservatively valued at \$200,000, by bequest of Mr. and Mrs. Charles F. Olney, of Cleveland, O.

GRADUATES OF THE THEOLOGICAL SEMINARY¹

Prior to 1876 no degree was conferred upon the completion of work in this department. Beginning with the class of 1876, the degree of Bachelor of Divinity was generally, although not invariably, conferred upon the graduates of the regular (after 1886 the classical) course. Since 1898, except in rare cases of exceptionally high scholarship, the degree of Bachelor of Divinity has been conferred only upon students in the classical course whose preparation for the work included a full collegiate course, with Greek. From 1898, therefore, the degree is indicated in the list.

**ALPHABETICAL INDEX OF
GRADUATES**

1. The first part of the document is a list of names and titles, including the names of the authors and the titles of the works. This list is organized in a table with two columns: the first column contains the names of the authors, and the second column contains the titles of the works. The names are listed in alphabetical order, and the titles are listed in the order in which they appear in the document.

ALPHABETICAL INDEX OF GRADUATES

The figures indicate the year of graduation; the letters before the year, the different departments. t. stands for theological, classical course; t. e. for theological, English course; t. s. for theological, Slavic course; l. for literary course, college; p. for philosophical course, college; s. for scientific course, college; c. for conservatory of music; p. t. for teachers' course in physical training; g. for graduates of other colleges who have received advanced degrees; and h. for honorary graduates. The year alone without preceding letters stands for graduates from the college classical course.
